-----	---

<p>Unusual site conditions, complex signs, special engineering, non-standard calculations and additional permit requirements may affect the cost. Analysis of awnings, canopies, and specialty structures will be completed on an hourly basis or a quoted fee. Payment is due upon receipt of invoice. We accept Visa, MasterCard, or American Express. Engineering work based on the fee above to include: Design of the concrete footing including reinforcing, primary poles, and or structure. Sealed engineering details, specifications, and calculations. Items not included: Permitting, Field observations, testing, cabinet design and additional engineering required due to varying site conditions or other causes. Soil bearing pressures and lateral soil resistance pressures are conservatively assumed. It is the contractors/installers responsibility to confirm assumed values.</p>
--

We have Staff registered in all 50 states, Washington, D.C., & Alberta, Ontario, & British Columbia Canada!
The above fees are to be used as a guide only.
